

Caesar Rodney School District Home Access Center Information

For Parents/Caregivers

This feature offers parents/caregivers of the Caesar Rodney School District secondary students access to their student's schedule, attendance, assigned class work, grades, and more through a web-based application called the Home Access Center.

- The system is available 24 hours a day, seven days a week, except during routine maintenance periods.
- Password-secured information can be accessed from home, work, or any computer equipped with internet access.
- E-mail links are available throughout the center so parents can communicate easily with teachers and school officials.

Log into the Home Access Center here: <http://hac.doe.k12.de.us/homeaccess>

PLEASE NOTE: Under "Select a District" make sure that Caesar Rodney appears. Enter your username and password and click "Log In."

Confidential username and password information can be set up at each school at anytime during the school year. In order to obtain your username or password, you must present a photo ID at the main office of the school your student attends. Please call ahead of time to make sure that the appropriate staff will be in the building during the date and time you wish to have your information setup.

Security

Please ensure that your username and password remain confidential. We recommend that you change your password several times per year. If, at any time, a parent or guardian believes the password has been compromised, it is the responsibility of that adult to change the password.

This can be accomplished online from the Home Access Center. To change your password, click on the "My Profile" link in the upper right hand corner. Note: to access this area, you must have the pop-up blocker feature on your computer disabled if you are using one.

Grading

Please note that assignments will be graded and recorded in a reasonable amount of time. Major projects and papers require a longer timeline for grading. Questions about your child's grades should be directed to the individual teacher, available through email links on the site.

Final grades are determined by teachers using both objective and subjective criteria. Grades shown in Home Access Center may not reflect your child's final grade until all scores are verified and posted by the school office.

Progress Reports will be available online at the mid-point of the marking period. Report Cards will appear online approximately one week after the end of the marking period.

Disclaimer

Using the Home Access Center information is not a replacement for checking your student's planner and/or talking with your child about assignments and grades. If you feel your child may be having difficulty in school, please contact his/her teacher or counselor to discuss proactive strategies so that we can ensure all our students have the tools and support they need to be successful.
